

Capstone Design: Proposal Evaluation Sheet

Date: 2021.09.23

Your Team: A(jjangdol)

Team to be Evaluated: G(cookie&cream)

Team Leader: Yoon Seongbin

The table in the next page contains evaluation criteria for a proposal. BG, PS, and PP represent background and related work, problem statement and proposed solution, and project planning, respectively. Please write the scores with a short description (i.e., why do you think so?) per each criterion.

Criteria	Items	Score
BG (30%)	Does the team thoroughly study prior work/approach/idea? 기존 아이디어/접근방식/연구를 빠짐없이 정리했는가?	30/ 50
	Does the team properly understand or classify related work? 기존 아이디어/접근방식/연구에 대해 적절히 이해하고 분류했는가?	40/ 50
	[Description] The team introduces a broad range of prior work but, it's not enough to help exactly understand.	70/ 100
PS (40%)	Is the proposal worth addressing? 제안한 내용은 충분히 의미 있는 프로젝트인가?	25/ 30
	Does the team clarify the problem? 해당 팀은 문제를 명료하게 정의하고 있는가?	25/ 40
	Is the proposed solution logical and practical? 제안하는 솔루션은 논리적이고 실용적인가?	20/ 30
	[Description] It was very interesting project but there could be several problems that could pop up, but it did not clarify their problems.	70/ 100
PP (30%)	Is it appropriate for a semester-long project as a team? The proposal must be neither too trivial nor too hard. 한 학기 동안 팀이 수행하기에 적절한 난이도인가?	35 / 40
	Are individual roles and collaboration clearly defined? 개별 역할 분담과 협업이 명료하게 정의되어 있는가?	30/ 30
	Is the final product meaningful? 최종 결과물이 의미 있는가?	20/ 30
	[Description] The individual roles and collaboration are well organized according to period. However, as it is difficult to access the result of the mode, whether the final product is meaningful or not is ambiguous.	85/ 100
Total (종합)	BG * 0.3 + PS * 0.4 + PP * 0.3 =	74.5/ 100

Review (총평)	<p>Overall, the team G(cookie & cream) prepared well on prior works, and the idea. But it is ambiguous for good data set, and detailed style problem. If this project successes it would be meaningful, but if not, it down grades to the color matching model.</p>
