

# Capstone Design: Proposal Evaluation Sheet

Date: 2021-09-25

Your Team: EDITH

Team to be Evaluated: Exponential (E)

Team Leader: Chingis Oinar

The table in the next page contains evaluation criteria for a proposal. BG, PS, and PP represent background and related work, problem statement and proposed solution, and project planning, respectively. Please write the scores with a short description (i.e., why do you think so?) per each criterion.

Criteria	Items	Score
<b>BG</b> <b>(30%)</b>	Does the team thoroughly study prior work/approach/idea? 기존 아이디어/접근방식/연구를 빠짐없이 정리했는가?	10 / 50
	Does the team properly understand or classify related work? 기존 아이디어/접근방식/연구에 대해 적절히 이해하고 분류했는가?	15 / 50
	[Description] The presentation was not persuasive enough, so it left some questions. It seems like there is a disagreement within the team.	25 / 100
<b>PS</b> <b>(40%)</b>	Is the proposal worth addressing? 제안한 내용은 충분히 의미 있는 프로젝트인가?	20 / 30
	Does the team clarify the problem? 해당 팀은 문제를 명료하게 정의하고 있는가?	20 / 40
	Is the proposed solution logical and practical? 제안하는 솔루션은 논리적이고 실용적인가?	10 / 30
	[Description] The solution proposed was not explained in details, so this part was a bit vague. The team told that they're still exploring available solutions. The problem was clarified but there are some disagreements within a team that made it questionable. As professor said, they may need to narrow down the scope of the problem.	50 / 100
<b>PP</b> <b>(30%)</b>	Is it appropriate for a semester-long project as a team? The proposal must be neither too trivial nor too hard. 한 학기 동안 팀이 수행하기에 적절한 난이도인가?	25 / 40
	Are individual roles and collaboration clearly defined? 개별 역할 분담과 협업이 명료하게 정의되어 있는가?	30 / 30
	Is the final product meaningful? 최종 결과물이 의미 있는가?	10 / 30
	[Description] The roles were clearly defined. The idea of the project is meaningful but it was hard to visualize the final product since the team have not come up with the possible technology yet.	65 / 100
<b>Total</b> <b>(종합)</b>	<b>BG * 0.3 + PS * 0.4 + PP * 0.3 =</b>	<b>47 / 100</b>

<b>Review</b> <b>(총평)</b>	Overall, the team need to discuss their ideas and the problem itself. Also, it is good to make an extensive investigation of the technologies they can possibly use.
