Capstone Design: Proposal Evaluation Sheet

Date: 2021-09-20

Your Team: E

Team to be Evaluated: C

Team Leader : Borislav Pavlov

Criteria	Items	Score
BG (30%)	Does the team thoroughly study prior work/approach/idea? 기존 아이디어/접근방식/연구를 빠짐없이 정리했는가?	35 / 50
	Does the team properly understand or classify related work? 기존 아이디어/접근방식/연구에 대해 적절히 이해하고 분류했는가?	20 / 50
	[Description] Existing ideas have been investigated, but sufficient explanations for each are lacking. In addition, it is necessary to classify various ideas to improve understanding of existing ideas.	55 / 100
PS (40%)	Is the proposal worth addressing? 제안한 내용은 충분히 의미 있는 프로젝트인가?	10 / 30
	Does the team clarify the problem? 해당 팀은 문제를 명료하게 정의하고 있는가?	30 / 40
	Is the proposed solution logical and practical? 제안하는 솔루션은 논리적이고 실용적인가?	10 / 30
	[Description] It clearly suggests which part is the problem and explains the solution to solve it. However, it requires sufficient persuasion that the solution can be a solution to the problem. If team C visualizes how stocks are bought and sold, depending on the degree of visualization, it may be leaking business secrets, or users may not understand how to buy and sell stocks. In addition, since the ultimate solution for stocks is in a higher return than visualization, it will be meaningful results after taking this into account.	50 / 100
PP (30%)	Is it appropriate for a semester-long project as a team? The proposal must be neither too trivial nor too hard. 한 학기 동안 팀이 수행하기에 적절한 난이도인가?	20 / 40
	Are individual roles and collaboration clearly defined? 개별 역할 분담과 협업이 명료하게 정의되어 있는가?	25 / 30
	Is the final product meaningful? 최종 결과물이 의미 있는가?	25 / 30

	[Description] If the roles of the team members are well divided, and the project proceeds as the team intended, it will be a meaningful enough project. However, it is a rather difficult project to carry out within one semester.	70 / 100
Total (종합)	BG * 0.3 + PS * 0.4 + PP * 0.3 =	57.5 / 100
Review (총평)	Each role is well divided and if the project goes well as proposal's content, it will be a meaningful project. However, more research on existing ideas is needed and more persuasion for the proposed solution is needed. Above all, the team should think carefully about whether the project can be carried out for one semester.
