Capstone Design: Proposal Evaluation Sheet

Date: _____2021.09.23_____

Your Team: _____EDITH(D)_____

Team to be Evaluated: B _____

Team Leader: _____Chingis Oinar_____

The table in the next page contains evaluation criteria for a proposal. BG, PS, and PP represent background and related work, problem statement and proposed solution, and project planning, respectively. Please write the scores with a short description (i.e., why do you think so?) per each criterion.

Criteria	Items	Score
BG **(30%)**	Does the team thoroughly study prior work/approach/idea? 기존 아이디어/접근방식/연구를 빠짐없이 정리했는가?	30 / 50
	Does the team properly understand or classify related work? 기존 아이디어/접근방식/연구에 대해 적절히 이해하고 분류했는가?	30 / 50
	[Description] The team made a good job on studying the demand on this project. They showed how people use Instagram for that but exploring more alternatives could have made it better.	60 / 100
PS **(40%)**	Is the proposal worth addressing? 제안한 내용은 충분히 의미 있는 프로젝트인가?	10 / 30
	Does the team clarify the problem? 해당 팀은 문제를 명료하게 정의하고 있는가?	30 / 40
	Is the proposed solution logical and practical? 제안하는 솔루션은 논리적이고 실용적인가?	10 / 30
	[Description] The problem is well-presented. The proposed solution is quite good and adding more details could have made it better. The solution is based mainly on TODOs, hence there are already many popular alternatives. The team replied to my question that TODOs are not necessarily about user's studies, which does not make a sense to me.	50 / 100
PP **(30%)**	Is it appropriate for a semester-long project as a team? The proposal must be neither too trivial nor too hard. 한 학기 동안 팀이 수행하기에 적절한 난이도인가?	20 / 40
	Are individual roles and collaboration clearly defined? 개별 역할 분담과 협업이 명료하게 정의되어 있는가?	30 / 30
	Is the final product meaningful? 최종 결과물이 의미 있는가?	20 / 30
	[Description] The difficulty is quite easy for the semester long project. The roles are clearly defined. The final product is quite meaningful.	70 / 100
Total **(종합)**	**BG * 0.3 + PS * 0.4 + PP * 0.3 =**	59 / 100

| Review (총평) | The problem is well-defined but should be investigated further. The proposed solution does not make the project unique, there are many alternatives.
I like the overall idea and I think the team can make the solution very interesting by investigating alternatives further.
The team's reply to my question made its meaningfulness questionable to me. | |
